SAMPLE DOCUMENT FOR A FICTIONAL COMPANY

Not a real certificate. It covers nothing and certifies nothing.

Certificate of liability insurance

In a real estimate, this is the certificate your insurer issued, exactly as they issued it. Your customer opens it right inside the estimate instead of asking you to send it.

INSURED

Your company, as named on your policy

INSURER

Your insurance company

COVERAGE

General liability, workers' compensation and the limits your policy states

POLICY PERIOD

The dates on your certificate

The company named in this example is fictional. QuoteStage shows the document you upload; it doesn't check or vouch for it.
